TRIESTE A CENTER OF KEEN ASSAULT

By Telegraph to The Freeman.
Rome, May 25.—The battles for possession of Trieste have reached a new stage of intensity.

"Throughout Thursday the Austro-Hungarians made desperate efforts to recapture their lost ground southeast of Gorizia, but all their counter assaults failed," said a dispatch from Udine today. It added: "From Castagnavizza to a point near Duino, on the Adriatic coast, the Austro-Hungarians tried vainly to retake the villages and fortified heights which had fallen into the hands of the Italians on Wednesday. These counter attacks were repulsed with severe losses."

Prisoners among the 9,000 men captured by the Italians, said that the Austro-Hungarian forces had been demoralized by the tremendous artillery fire which raked their lines before the Italian infantry was sent forward.

The Italians are still between eight and nine miles from Trieste, in this sector, but the spires of the churches in the coveted city can plainly be seen on bright days.

The Italians have refrained from bombarding Trieste, because they want the city to suffer damage as slight as possible. Cannonade and bombardments around the city are shelved at intervals, but the Italians are careful in the aiming of their guns and keep as many projectiles out of the city as possible. Fifty British guns of big calibre were engaged in the bombardment which preceded the big battle that opened on Wednesday morning. They played a prominent part in smashing the Austrian lines between Castagnavizza and the sea.

ITALY NEEDS BRICKS

Must Transport Material for Building Army Entrenchments.

By Telegraph to The Freeman.

Washington, May 25.—Italy needs not bullets but bricks, plain ordinary American bricks. Bricks are a necessity for defense in Italy, not as a substitute for ammunition but for the building of defenses. Technical experts, now in Washington with the Italian mission, today told officials here that of every three ships bringing supplies to Italy, at least one of them should carry a cargo of bricks.

Italy must make a different sort of warfare than any of her allies. Because of the geographical nature of the country over which she is fighting against the central powers, it is necessary for the Italian armies to build their defenses out of materials which they transport, instead of throwing up entrenchments and redoubts from earth. The defenses are built of brick, much of which comes from America.

BACK TO DOWNSVILLE.

Leonard Was Wanted There on a Charge of Forgery.

Thomas Leonard of Downsville, who came to Kingston some time ago and when he left the O. & W. station here fell in with bad company, according to his story, told the local police, and was relieved of some \$50, was taken to his home town Thursday afternoon by the county officials where he will face a charge of forging a name to a check which had been entrusted to him last April. Leonard, whose real name is Frank Leonard, told his tale of the robbery to the local police and through the story in the local papers, the Delaware county authorities heard of the case and notified Chief Wood to hold Leonard while an investigation was being made into the forgery.

Leonard was taken back home on the afternoon train by the Delaware county authorities. He had been in the county jail since arrested by Chief Wood here last Friday.

Saving the Coffee Grounds.

By Telegraph to The Freeman.

The Hague, May 25.—Even the coffee grounds are being utilized in Germany. A traveler arriving here today from Germany said that the Hamburg branch of the food ministry has "called the coffee grounds to the colors," by instructing all restaurants, hotels and private individuals to save the grounds. They are collected in by the government and converted into food. The growing of sunflowers is being encouraged so that the seeds can be utilized for fats.

German Influence Weakened.

By Telegraph to The Freeman.

Amsterdam, May 25.—That the resignation of Count Tisza, as premier of Hungary, has weakened Germany's influence in the Dual Monarchy, is admitted in Berlin. Count Tisza was a staunch friend of Germany and could always be counted upon to throw the weight of his influence on the German side of all controversies. However, Vienna dispatches make it plain that domestic affairs were entirely responsible for the resignation of the Hungarian statesman.

Field Is Now a Sergeant.

By Telegraph to The Freeman.

Chicago, May 25.—Marshall Field has received his first promotion as a member of headquarters troop, First Illinois Cavalry. Special order 42 elevated him to sergeant. His promotion was due to his knowledge of horsemanship and military map making.

REGULATIONS TELL HOW TO REGISTER

Police Officers to Aid Federal Service on June 5 by Seeing That All Registered—Legal Aid Provided for Registration Boards.

The regulations prescribed by the president for the registration of all male persons between the ages of 21 and 30 on Tuesday, June 5, provide that police officers of any grade or class, of town, township, county or state, and all officers or agents of the federal government are required to render every assistance in the execution of the law for registration.

Section 16 of the president's regulations, which fixes the duty of the police officers of city and country, as above, states also: "It is especially made the duty of such police officers to see that all male persons within the designated ages have registered and to report those who have not registered to the proper registration board for such action as may be necessary. Police officers may require any person subject to registration to exhibit his registration certificate."

Who Must Register.

Section 4 of the regulations provides who must register. The section is as follows:

"4. Persons required to register.—Male persons who shall have attained their twenty-first birthday and shall not have attained their thirtieth birthday on or before the day set for registration by the president must register. The only exceptions are persons in the military or naval service of the United States, which includes all officers and enlisted men of the regular army, the navy, the marine corps, and the National Guard and naval militia; officers in the service of the United States, and officers in the officers' reserve corps and enlisted men in enlisted reserve corps while in active service. All male civil officers of the United States, of the several states, territories, and the District of Columbia within the designated ages must register. All male persons within the designated ages engaged in making the present registration must register."

Legal Advisers Provided.

All the regulations for the establishment of the boards of registration and registrars in each district have been complied with. Legal advisers for such boards and registrars are provided by regulation 15, which says: "Prosecuting attorneys and city attorneys, or city counsel shall act as legal advisers of registration boards and registrars, and shall aid and advise in all matters touching the registration. All officers of the state and federal governments are hereby enjoined to render such assistance as may be required in the execution of the law and of these regulations."

Register Between 7 a. m. and 9 p. m.

Regulation 15 fixes the hours for registration. It says: "The day extends from 7 a. m. to 9 p. m. Where there is only one registrar, he should arrange to have his meals in the booth. Bring his own lunch. Voluntary assistance may be accepted, but all voluntary registrars must be sworn. When there is more than one registrar at least one registrar will remain on duty at all times."

Absentees and the Sick.

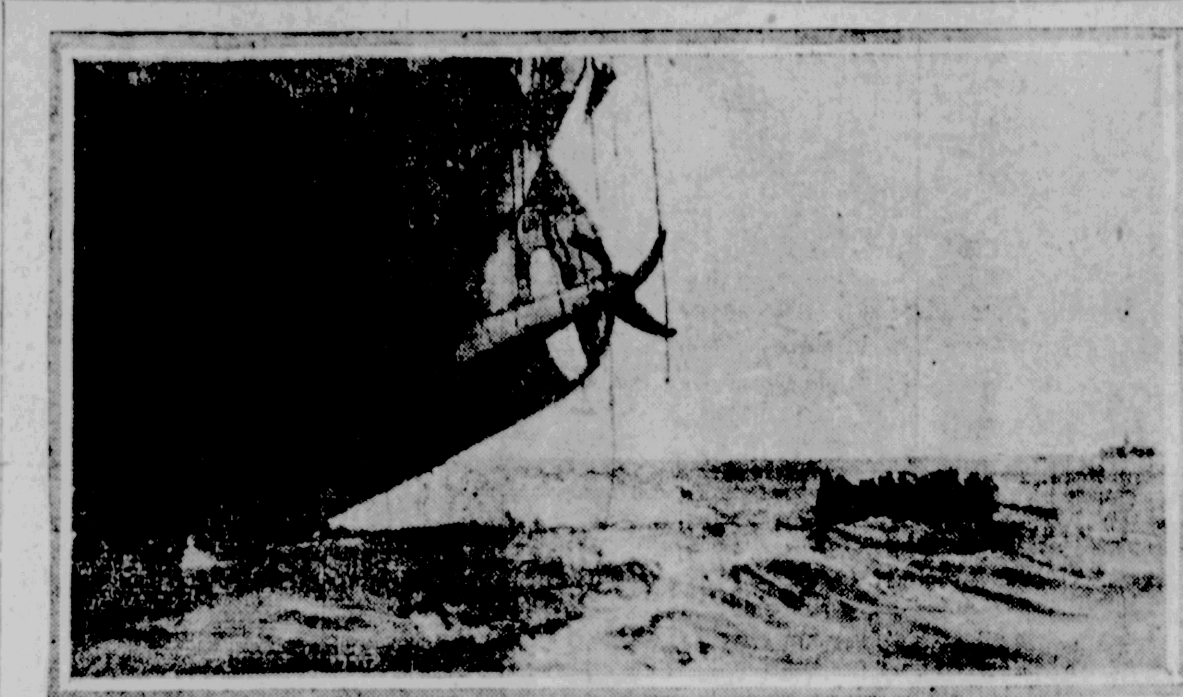

Provision is made in the regulations for registration of those who are sick and those who will not be at home on the day of registration, in the following sections: "56. Registration of absentees.—Absentees and the sick are authorized to mail their cards addressed to the registrar of their home precinct in care of the sheriff of their home county. Sheriffs will hold these cards until the day of registration, on which day they shall be delivered to the proper registrar. The registrar will file these cards with the other cards of the precinct, and in case an addressed stamped envelope has been inclosed, mail a certificate of registration to the person registered."

Why You Should Keep Your Certificate.

Regulation 62 provides: "62. Registration certificate.—All persons registered will be furnished a registration certificate. Since all police officers of the nation, states, and municipalities are required to examine the registration lists and make sure that all persons liable to registration have registered themselves, much inconvenience will be spared to those who are registered if they will keep these certificates always in their possession. All persons of the designated ages must exhibit their certificates when called upon by any police officer to do so."

Fathers and the Boys.

The "Fathers and Son" banquet will be held at the Y. M. C. A. at 6:30 o'clock tonight. Mayor Canfield will be toastmaster and the Rev. J. I. Blair Larned and Attorney Alfred Van Buren will be the speakers.

SINKING OF TRANSPORT BALLARAT
REMARKABLE PHOTO OF ESCAPE FROM SUBMARINE SHIP.

This is one of the most remarkable pictures that has yet come out of the "submarine zone." It was taken from one of the torpedoed ship's boats as it was pulling away from the sinking vessel. One man can be seen sliding down a rope over the ship's rudder, another has just jumped, throwing up the spray which can be seen. The name on the ship is withheld by the British Admiralty, but the fact that it was a transport is admitted.

WILSON PROCLAIMS RED CROSS WEEK

President Sets Week Ending June 25 For Effective Service to Great Relief Agency in Which All May Join.

By Telegraph to The Freeman.

Washington, May 25.—Recognizing the fact that but a small proportion of American people can have the opportunity to serve on the battlefield, but that all men, women and children can do effective service by aiding the Red Cross, President Wilson today issued a proclamation designating the week ending June 25 as Red Cross week. The proclamation calls upon the people to give generously to the fund for the support of the national relief needs. The proclamation follows:

"Inasmuch as our thoughts as a nation are now turned in united purpose toward the performance to the utmost of the services and duties which we have assumed in the cause of justice and liberty,

"Inasmuch as but a small proportion of our people can have the opportunity to serve upon the actual field of battle, but all men, women and children alike may serve effectively by making it possible to care properly for those who do serve under arms at home and abroad,

"And inasmuch as the American Red Cross is the official recognized agency for voluntary effort in behalf of the armed forces of the nation and for the administration of relief,

"Now, therefore, by virtue of my authority as president of the United States and president of the American Red Cross, I, Woodrow Wilson, do hereby proclaim the week ending, June 25, 1917, as Red Cross week, during which the people of the United States will be called upon to give generously and in a spirit of patriotic sacrifice for the support and maintenance of this work of national need.

RECRUITING THE BAR.

They're All Fighters, Judge Clearwater Tells the Governor.

Governor Whitman has appointed a committee of distinguished lawyers to aid in recruiting the National Guard from the law offices of the state, and has designated Judge Clearwater as a member of the committee for this locality. The judge accepted the appointment, and in response to the governor's request has furnished a complete list of the one hundred members of the Ulster county bar, with their post office and telephone addresses. He has opened a recruiting station at his office in the Ulster County Savings Bank building, where he will be glad to enroll all lawyers, law students, law clerks, law stenographers and lawyers' assistants who are willing to enter the army or the navy. The judge advised Governor Whitman that the one hundred members of the Ulster Bar without exception were fighters of the first rank.

ROAD-BUILDER TO QUIT.

Joseph Walker to Sell Equipment on Saturday at New Paltz.

Joseph Walker, the well known highway contractor of New Paltz, who has built hundreds of miles of state highways during the last twenty years, is going to quit business and will sell his big equipment at auction on his farm at New Paltz Saturday morning, May 26, beginning at 10 o'clock. Mr. Walker says that too low prices for state work and the scarcity of labor have combined to make conditions unsatisfactory and he is going to get out of the contracting game. Mr. Walker is known as one of the most successful highway builders in New York state. An announcement of the equipment he expects to sell will be found in another column.

SUMMER WEATHER ON SUMMER STREET

For the Tribulations of the Larkins and the Doyle's Keep the Atmosphere Warm—Their Troubles Have an Airing Today.

While the weather may have been cool in other sections of the city it has been summer weather on Summer street for several days past as the difficulties of the Larkins and the Doyle's have kept the atmosphere hot on that street, and the latest development had an airing in court before Recorder Lang this morning when Mr. Larkin appeared to lodge a complaint regarding Mrs. Doyle's cow being allowed to run loose on the street to the detriment of his garden. He also had something to say about the Doyle chickens.

On the other hand Mrs. Doyle came to court with a bundle which when opened disclosed a number of unclean worn through by daily use and not by buller holes, as birds eye shot generally left a black smudge which was absent from the sheets. Turning to Mr. Larkin the court instructed him to bring one of the sheets he used in his gun to court Saturday so he could examine it.

Getting down to the trouble over the chickens, the court listened to both sides. Mr. Larkin wanted to know if he had a right to shoot the chickens in case they came into his garden and scratched up his seed.

Recorder Lang informed him that in case a neighbor's chickens came over into his yard and got in his garden that he should notify the neighbor to keep the chickens home, and that if the neighbor still allowed them to come over in the Larkin yard Mr. Larkin would have the right to shoot them, but he had no right to shoot chickens in the neighbor's yard.

The court advised Mrs. Doyle that if she wanted her chickens kept from being shot that she should keep them at home.

In conclusion he advised both Mr. Larkin and Mrs. Doyle to go home and try and live in peace as neighbors should.

It might be added that Mrs. Doyle denied that her cow was allowed to run loose, and she was advised to keep the animal tied up in case it did.

Neither Mr. Larkin nor Mrs. Doyle were arrested, but both came to lodge complaints against the other.

Before closing this record of Summer street it should be stated that Mrs. Doyle's boy was also in court. He was arrested the other evening for loitering in the streets.

Recorder Lang gave him a reprimand and warned him that if he did not behave in the future he would be punished.

Powder Economy During War.

WAITE'S BODY TO BE BURIED IN N. Y.

Murderer of Wife's Parents Kept Nerve Unshaken Up to Moment of Execution—Quotes Stevenson's Words as Last Message.

By Telegraph to The Freeman.

Ossining, N. Y., May 25.—"Call us with morning faces, eager to labor, eager to be happy."

This quotation from Stevenson was the parting message to this world of Dr. Arthur Warren, Waite, who went to the electric chair last night with unflinching nerve to execute the murder of his wife's parents, Mr. and Mrs. John E. Peck.

In a sealed envelope entrusted to Dr. Amos O. Squires, prison physician, with instructions not to open it until today, Waite had written this cryptic message.

Today the body of the former dentist was claimed by an Ossining undertaker acting under instructions of Frank Waite, the dead man's brother.

Waite's request that his body be buried in New York will likely be complied with.

Waite, as he had boasted, was game to the last. His jaunty nerve and seeming lack of feeling, however, nearly failed him at the last moment. As he passed down the corridor to the death chamber, a chorus of voices from others occupying death cells bade him friendly farewell. A shadow of emotion passed over his face, his steady step lagged a moment, and then bracing himself against collapse, he passed into the death chamber.

"Is this all there is to it?" he queried as he dropped into the shiny seat of the electric chair. As his arms and legs were trussed they twitched nervously and his face became ashen as the little black mask dropped before it, but he gave no vocal sign of distress.

Two shocks were administered.

HIGHLAND YOUTH GIVEN \$300.

Supreme Court Jury Verdict for Injuries in Auto Smash.

A jury in Supreme Court at Newburgh on Thursday rendered a verdict of \$300 for plaintiff in the case of Clarence Smedes of Highland, Ulster county, against Joseph B. Jones of Newburgh. The plaintiff, who is 19 years old, brought the action through his father, Joel Smedes, as guardian, demanding \$1,000 damages for injuries sustained just after dusk on the evening of Sunday, Nov. 25, 1916, when a Buick automobile in which he and four other persons were riding collided with a small Triumph runabout occupied by the defendant and F. Gerard Wood, who were on their way to Newburgh from a trip to inspect some hunting grounds a mile or so below Highland. Young Smedes had two ribs broken and a shoulder blade fractured. Dr. Albert Reed of Highland testified that the bone of the shoulder blade had not knitted properly, and that Smedes would have one shoulder slightly lower than the other as he lived.

The case was tried for the plaintiff by A. W. Lent and for the defendant by Jacob A. Decker and Henry Kohl. It occupied two days.

The Altar of Freedom.

Memorial Day this year will mean more to the millions of America than it has since our war with Spain, and the services in the churches on Sunday will help to clear and make forcible this significance. Memorial Sunday will be fittingly observed in the St. James Methodist Episcopal Church on Sunday evening, and the service will be patriotic in character. Dr. Hargreaves will deliver an address on the timely topic, "The Altar of Freedom." The music will be appropriate. On the following Sunday night, Dr. E. E. Count of Bulgaria, lately returned from the front in the near east, will describe his thrilling experiences in the war in the Balkans.

Americans Fighting With French and British Forces Cannot Shift Over to Serve Under Pershing and Stars and Stripes.

By Telegraph to The Freeman.

Washington, May 25.—Americans now fighting with the British and French forces in France will not be permitted to join the United States troops under Major General Jack Pershing, and continue their "bit" for the Allies under the Stars and Stripes.

This view was expressed today by war department authorities who held that Pershing's men would not be supplemented by Americans now in the French or British service, but that more American troops would be dispatched to French soil as quickly as the units could be given the intensive training that is planned for them here.

It is variously estimated that between 30,000 and 40,000 Americans are now fighting with the British and French forces. Practically all of them have renounced their American citizenship by taking the oath of allegiance prescribed by Great Britain and France, although in the case of foreign legion among the French troops and in that of many of the flying corps wearing French colors, American citizenship is retained by reason of the fact that these men took only "an oath of obedience."

The difficulty Americans on French soil would face in joining Pershing's troops, an army official pointed out, would lie in the fact that the French forces at this time cannot afford to lose any of the force now in the field, and that the question of provisioning the men with American equipment and rations is not contemplated in the general scheme of Pershing's expedition.

Grave doubt was expressed by the army authorities that France or Great Britain would consent to any American now in their service transferring to the American forces. He explained that the Americans now in the service now have a contract to serve for a certain period, and that the French and British commanders would hesitate to terminate the agreement on the mere ground that the American expatriates desired to continue their services under their own flag.

Today the body of the former dentist was claimed by an Ossining undertaker acting under instructions of Frank Waite, the dead man's brother. Waite's request that his body be buried in New York will likely be complied with.

STARS AND STRIPES ON BATTLE FRONT

By Telegraph to The Freeman.
London, May 25.—The United States flag is on the battle front at last. It flies alongside the tri-color on the Alsne river, where furious fighting has been in progress ever since the spring campaign opened.

The first detachment of the American field service, made up of college men who came to France to drive ambulances for the American hospital, but who were organized into a service corps as soon as the United States entered the war, is now actively participating in the operations with the French.

MR. MELIA SOLVES H. C. O. L. PROBLEM

But at Expense of Kingston Residents—Stole Milk and Rolls From Porches—Sent to Albany—One-Legged Tramp Goes Also.

Gus Melia, a middle aged tramp, hit upon the problem of combating old Mr. High Cost of Living, by securing his meals at the expense of Kingston residents which led to his arrest early this morning by Sergeant Hanley who found Gus at the corner of Smith avenue and O'Neil street with a bag of rolls under his arm that he had stolen from a front porch. Recorder Lang later in the morning sentenced Gus to three months in the pen at Albany.

Gus hit town several months ago, and made a regular visit to the city hall each night to sleep in the tramp's lodging. Gus became so frequent a visitor that he wore out his welcome, and Chief Wood advised him to move on, to another town. Gus, however, neglected to do so, and hunted up other apartments which he found in a shed under the Washington avenue viaduct.

With sleeping quarters secured Gus cast around for means of securing his meals. He hit upon the plan of following the early morning baker around on his trips and helping himself to rolls and occasionally a pie or cake. With the stolen articles tucked in his pocket he next visited a front porch on which had been left a bottle of milk and took this also.

This had been going on for several weeks and Gus congratulated himself upon finding a complete and easy method of putting old Mr. H. C. O. L. to sleep, but unfortunately for Gus patrons of the baker and milkman complained that they were not receiving their rolls and milk, and the matter was brought to the attention of the police.

In fairness to Gus, however, it should be stated that he informed Recorder Lang this morning that this was the first time he had ever stolen any rolls and had never stolen any milk.

After Gus's case had been disposed of Chief Wood arraigned one Joseph Meloy, a one-legged tramp, who had been arrested by Driver Simon Wood on a charge of panhandling. Joseph informed Recorder Lang he was a hotel man out of a job. The court sentenced Joseph to three months in the Albany pen and he and Gus left together in custody of an officer for the capital city.

To Keep Chickens at Home.

Newburgh has decided to follow the lead of Poughkeepsie in not declaring a holiday on the occasion of the military census on June 5. The Chamber of Commerce after severe cogitation came to the conclusion that it was a solemn affair, not one to be entered upon lightly. Instead they will recommend to the health authorities as a measure of economy that the residents of the Hill City be permitted to duct the continuance of the war, to raise chickens in their rear yards. This suggestion has been appealed to the health authorities, with the proviso that precautions be taken to see that the chicken industry is not extended to cellars and garrets.

Evergreen Park Opening.

Evergreen Park will be formally opened for the summer season on Saturday evening, May 26, when the first of series of dances will be held in the Park Casino. Dances will be held in the Casino every Wednesday and Saturday evening starting on Decoration Day. The dances have proved to be very popular with a large number of summer boarders, also with the dance lovers in that vicinity, and the managers of the Casino expect to have the best season they have enjoyed since the opening of the park. The yacht Schults will make special trips, the time of leaving to be announced later. The music for dancing will be furnished by McLean's popular orchestra.

Doings of the Van Loons-

At last Father found something good in the Neighborhood

TRUE, this country is in a state of war, but business must go on more briskly than ever. There is not now sufficient reason for the splendid American spirit of enterprise that has been a distinguishing trait of this nation to begin oozing out at our finger tips. The gait of the country should not change, because there is no necessity for change—because any slowing down at this time would greatly hinder our success in the conflict in which we've become involved.

Unreasonable economy should have no more place now in the daily program of the American people than profligate waste. The one can be quite as harmful as the other. Therefore sound your horn—throw in your clutch—drive right ahead and keep handy in your home a case of

"Well, have your women folks bought any overalls yet?" asked the street corner politician of his friend as they met to discuss the weather, war and kindred subjects.

"None," replied the friend, "not as far as I know."

"Neither have mine," said the politician, "but I won't raise any objection if they do."

"Why?" asked the friend.

"It would likely reduce the dress making bills if they did," explained the politician.

"Now is no time to economize," replied the friend, "for I read where every person should buy everything as usual."

"What do you mean?" queried the politician.

"Why," replied the friend, "that no one should try to save money by stopping from buying articles of merchandise as it would hurt business."

"I read that too," said the politician, "but while in the main it is true it is also a fact that you can't buy as much now as you could a year or so ago."

"How is that?" asked the friend.

"Everything is jumping upward except wages," explained the politician, "and the fact remains that a dollar does not go as far now as it did some time ago."

"That's true too," confessed the friend.

"I know it is true," replied the politician, "for a year or so ago you could buy a bag of flour for 50 cents that you now have to pay \$2 for."

"And look at the price of shoes?" said the friend feelingly.

"You said something then," replied the politician, "for the women folks went out and spent \$20 and all they got if I remember rightly was two pairs of shoes."

"It's something awful," confessed the friend.

"Well cheer up," said the politician, "better times are coming."

"What do you mean?" asked the friend.

"Warmer weather is coming," explained the politician, "and I am going to advocate to the women folks that there is nothing so healthy as the bare foot cure."

"How are you going to work it?" asked the friend.

"That's easy," returned the politician, "I am going to tell them it pays to walk about the house in their bare feet."

"But will they do it?" asked the friend.

"We be not," confessed the politician, "but I know a young woman who came here from New York last year and every morning in the summer she got up early and trotted around on the lawn in her bare feet."

"What's the idea?" queried the friend.

"Is taking what she calls the dew bath for her feet," replied the politician.

"And it is all right for experts to advise people to continue buying as much as usual," continued the politician, "but they don't tell you where you can get the extra money to do it."

"I wish some one would figure it out for me," said the friend.

"Even ordinary house brooms have jumped in price," continued the politician, "for my folks tell me they now have to pay twenty cents more for a broom."

"That ought not to worry you though," argued the friend.

"How is that?" asked the politician.

"Don't be sweeping out the house so often," replied the friend, "and the broom will last longer."

"Funny ain't you," replied the politician, "but still I would not object to some one telling me how to make a dollar last longer."

"That's easy," retorted the friend, "Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Shoot," replied the politician.

"Don't spend it," said the friend dodging a blow.

"You seem to be feeling better than usual," replied the politician following a pause.

"I am," said the friend.

"What happened?" asked the politician.

"Nothing much," replied the friend, "only I was reading the argument put up by a local man as to why speeders should not be arrested for using the main street of the city as a race track."

"That's enough to make any one feel good natured," confessed the politician.

"It is nearly as good as the argument put up several years ago by another citizen," said the friend, "who argued that the police should arrest only local auto drivers and let out of town men go free."

"One is about as sensible as the other," commented the politician.

Paper From Spinach.
A French horticulturist, M. de Noyer, proposes the stems of spinach for making paper. These contain 46 per cent of cellulose, against four per cent in the stems of wheat straw. M. de Noyer claims that, in experiments in making paper from spinach stems, he has followed the methods of the Grenoble paper-making school and has produced a product equal to the best Japanese in its remarkable consistency.

THE KITCHEN CABINET

There is not a creature from England's king To the peasant that delivers the soil. That knows half the pleasures the seasons bring. If he have not his share of toil.

WHEN FRIENDS DROP IN TO TEA.

The housewife who keeps a few things on her emergency shelf for the unexpected is never a flurried, hurried and anxious hostess. If she is a woman who lives in a small town, next door to a grocery, it is not so vital that she keep supplied, and yet even she may be surprised when the store is closed and there is no place to get a hurried supply. There are any number of things that the forehand woman does on days that are rainy and things are at a standstill in various ways. She may prepare pastry all ready for the adding of the water, put it in a glass jar and keep it in a cool place, when a pie can be quickly prepared. Keep on this emergency shelf a jar of bread crumbs, some finely flavored cheese, grated, several cans of soup, a box of sardines, and salted codfish, as well as cans of salmon and tuna fish, a bottle of olives, a box of salted crackers, a can of cream, jars of bacon and dried beef and other delicacies which may appeal to the taste. These will all keep, except perhaps the bread crumbs and cheese. A can of boiled salad dressing is always a help in time of need; homemade pickles, capers, preserves and jellies are always in order, with a few nuts ready to use, the dishes one may prepare will be many, and the cure is all over when the shelf is well supplied. It should be a rule never to use one of these things without replacing it at the earliest opportunity. Another fine arrangement for the hostess who is apt to be disturbed at a sudden onslaught of company, is to have a carefully prepared menu (or three or four) with all the necessary recipes for preparing the dishes carefully written out on the sheet and hung where a glance will tell how to go about the preparation. Your meal may be partly prepared when the guests arrive, but with a glance at your menu lists you will be able to supplement or add something to your meal which will make it more suitable.

SHOOTING AFFRAY AGITATES ALSEN

Colored Residents Cut Loose With Firearms in Quarrel and One is Wounded in Arm—P. Flower is Arrested.

Saugerties, May 25.—A shooting affair between negroes at Alsen Wednesday afternoon resulted in one of the parties being shot through the arm. After the fracas the gunner came to Saugerties where he was arrested by Officer Reynolds.

On being searched two revolvers were found in his possession. His wife was with him. They gave their names as Mr. and Mrs. Percy Flowers. They were locked up Thursday and taken to Catskill. The shooting took place in Greene county.

EGG-PRODUCING RATIONS.

Beef Scrap Corn as Mash With Corn and Oats.

With wheat so high, poultrymen will be interested to learn that on the United States Department of Agriculture experiment farm excellent egg-laying results were secured with a wheatless ration. Thirty Leghorn pullets to which this ration has been fed for 1½ years produced an average of 147.3 eggs per hen for the pullet year. This compares favorably with egg yields secured on other rations containing wheat and therefore more expensive. This pen, moreover, during the first 16 weeks of its second year has averaged 28.5 eggs per hen, 17.5 eggs per hen being produced in March.

The same wheatless ration has been fed since last November to a pen of Buff Orpington pullets which have laid 52 eggs per hen in 20 weeks, and hold the highest egg record of any of the large feeding pens of pullets at the farm this year. Two other pens, however, are less than 1 egg per hen behind this pen.

The ration used was as follows: Scratch mixture—2 pounds cracked corn; 1 pound oats.

Dry mash—3 pounds corn meal; 1 pound beef scrap.

The scratch mixture was fed sparingly so that the hens ate about equal parts of this mixture and of the dry mash. The total grain consumption of feed for the year was 52 pounds, of which 25 pounds was scratch mixture. Throughout the year it took 4.6 pounds of feed to produce a dozen eggs.

This scratch mixture, with wheat \$2.57, cracked corn \$1.35, and oats 70 cents per bushel, is 49 cents per hundred pounds cheaper than the regular mixture of equal parts cracked corn wheat and oats. Another mash which is slightly cheaper than this one, is made of 4 per cent each bran and middlings, 26 per cent beef scrap, and 66 per cent corn meal.

If the wheat is omitted from the ration it is very essential to feed a considerable proportion of beef scrap in the mash, but with present prices, beef scrap is one of the cheapest poultry feeds, consider its high protein content.

These experiments, the specialists say, prove that wheat is not essential in an egg-laying ration and that excellent results can be secured by using corn and oats as a scratch mixture provided this is fed with a good mash containing 25 per cent beef scrap.

C. OF C. PLANNING A CREDIT BUREAU

Committee at Work on New Institution Which Will Eliminate Loss of Uncollectible Accounts—The Plan as Outlined.

Some time ago President Leighton, of the Kingston Chamber of Commerce, appointed a committee to consider the advisability of establishing a credit bureau as a part of the official program of work. The need of such a bureau had been emphasized by several members of the Chamber on the "Write it Down" blanks which had been mailed to every member the first of the year. It making its report the committee said:

"It has required no great amount of investigation to convince us that such a bureau would be of great advantage to the merchants of Kingston and that the Chamber of Commerce is the proper agency to establish and operate it. The losses of retail merchants due to uncollectible accounts and the expense of collecting slow accounts is probably in the neighborhood of two per cent of their gross sales. If this loss could be cut in half a credit bureau would more than pay for itself. Such a bureau will also prove an effective aid toward thrift and self respect."

In accordance with the recommendation of the preliminary committee, the directors voted to establish a credit bureau and appointed the following committee to work out the best possible plan:

S. M. Watts, chairman, Watts & Tammany.

J. C. Gregory, Gregory & Company.

A. E. Rose, Rose-Gorman-Rose, Inc.

Nicholas Stock, Stock & Cordts, Wesley Waterbury, J. T. Johnson (Broadway store).

A careful investigation of the methods used in other cities and commercial organizations has been made and the committee feel that the plans as now adopted for the conduct of this bureau, based on the experience of other successful bureaus, cannot fail to prove efficient if the merchants of the city, for whose benefit the bureau is established, will give their hearty co-operation to the movement.

The bureau will be conducted at the offices of the Chamber of Commerce, 574 Broadway, and any member in good standing of the Kingston Chamber of Commerce may secure without charge the advantages and service of the bureau by signing an application for enrollment and agreeing to abide by the following rules and regulations:

1.—To co-operate with the bureau by furnishing within a reasonable time on printed sheets provided by the bureau, a list of his credit customers, rated according to the actual ledger experience of the member.

2.—To furnish the bureau from time to time with such information as may be deemed essential for the accuracy and efficiency of the bureau.

3.—To consider all ratings and other information secured from the bureau as strictly confidential and for the use of the member only.

As soon as this application for enrollment is filed the necessary blanks will be furnished on which each member will make an alphabetical list of his credit customers for the last two years taken from his ledger. From this data rating cards will be made up, each member being given a number known only to those in charge at the office. All information will be kept strictly confidential and the members will have the privilege of calling up headquarters at any time during regular office hours. In responding to request for information, only facts as secured from the latest report will be given, a simple rating key being used, and no mention will be made of the source of the information.

The application cards are now in the hands of the above mentioned committee and every merchant in the city who desires the service of this bureau should call on some member of the committee or apply to the Chamber of Commerce (phone 504). The success of this bureau will depend upon the measure of co-operation which the merchants themselves are willing to give to the committee in charge.

SHOOTING AFFRAY AGITATES ALSEN

Colored Residents Cut Loose With Firearms in Quarrel and One is Wounded in Arm—P. Flower is Arrested.

Saugerties, May 25.—A shooting affair between negroes at Alsen Wednesday afternoon resulted in one of the parties being shot through the arm. After the fracas the gunner came to Saugerties where he was arrested by Officer Reynolds.

On being searched two revolvers were found in his possession. His wife was with him. They gave their names as Mr. and Mrs. Percy Flowers. They were locked up and Thursday were taken to Catskill. The shooting took place in Greene county.

EGG-PRODUCING RATIONS.

Beef Scrap Cheap As Mash With Corn and Oats.

With wheat so high, poultrymen will be interested to learn that on the United States Department of Agriculture experiment farm excellent egg-laying results were secured with a wheatless ration. Thirty Leghorn pullets to which this ration has been fed for 1½ years produced an average of 147.5 eggs per hen for the pullet year. This compares favorably with egg yields secured on other rations containing wheat and therefore more expensive. This year, moreover, during the first 16 weeks of its second year has averaged 28.5 eggs per hen, 17.5 eggs per hen being produced in March.

The same wheatless ration has been fed since last November to a pen of Buff Orpington pullets which have laid 53 eggs per hen in 26 weeks, and hold the highest egg record of any of the large leading pens of pullets at the farm this year. Two other pens, however, are less than 1 egg per hen behind this pen.

The ration used was as follows: Scratch mixture—2 pounds cracked corn, 1 pound oats.

Dry mash—3 pounds corn meal, 1 pound beef scrap.

The scratch mixture was fed sparingly so that the hens ate about equal parts of this mixture and of the dry mash. The total grain consumption of feed for the year was 52 pounds, of which 26 pounds was scratch mixture throughout the year. It took 4.6 pounds of feed to produce a dozen eggs.

This scratch mixture, with wheat, 50 cents cracked corn, 33.5 cents and oats 70 cents per bushel, is 49 cents per hundred pounds cheaper than the regular mixture of equal parts cracked corn and wheat and oats. Another mash which is slightly cheaper than this one, is made of 4 per cent each bran and middlings, 26 per cent beef scrap, and 66 per cent corn meal.

If the wheat is omitted from the ration it is very essential to feed a considerable proportion of beef scrap in the mash, but with present prices, beef scrap is one of the cheapest poultry feeds, considering its high protein content.

These experiments, the specialists say, prove that wheat is not essential in an egg-laying ration and that excellent results can be secured by using corn and oats as a scratch mixture provided this is fed with a good mash containing 25 per cent beef scrap.

Get Bread That's Pure!

In these days of food shortage and excessively high prices every home, boarding-house and hotel-keeper is studying methods to meet conditions so foreign to the days of peace and plenty. Unscrupulous producers are resorting to unwholesome adulterations and "food doctoring" to meet the demand for lower "cost of living." Might not many thousands of people be said to be "digging their graves with their teeth?" And is it not wisdom to tie to a pure, reliable food article like

A Word About Comfort

"SOCONY!"

What you get out of your car depends to a large extent upon what you put into it.

Just as a matter affecting your own comfort it pays to get only the best gasoline—SOCONY.

There is no gasoline more highly refined or more powerful than SOCONY. And it is the only gasoline which is always the same, wherever you buy it. That means a welcome freedom from faulty carburetion.

Look for the Red, White and Blue SOCONY Sign. It insures you more miles to the gallon and more power to the mile.

KINGSTON, N. Y., MAY 25, 1917.

Since the declaration of war in April the habit has become firmly fixed in the East of accepting at par value the statements emanating from Washington concerning an alleged apathy existing in Middle Western States. Ours has been a complacent attitude along the Atlantic seaboard which all through the war, we have been prone to regard the center of patriotism and willingness to serve the Government in any emergency. This notion has been built up by flag-waving enterprises of dubious practical value, preparedness parades and the like until it has become in the nature of a fixed belief, generally held. But like some other beliefs, this popular concept has been shattered in the remorseless march of events. The returns show that almost every State in the Middle West is nearer its quota for the National Guard and regular army enlistments than New York, and the other States represented in the thirteen stars of the original flag are lagging behind. We do not believe this condition will hold true of the Liberty Loan Bond subscriptions but, nevertheless, it is true of the closing days of the volunteer system as a means to provide men for the Army and Navy.

It may not be amiss to raise that very question locally as to whether flag-waving and mere platform patriotism have not been carried to the lengths that The Freeman feared, having come perhaps to be regarded as substitutes for the very service such demonstrations were supposed to promote. If that be true, many people are destined for a rude and unhappy awakening. Enthusiasm at rallies should not be the end and object of such gatherings, but rather the means of inspiring men to service. Otherwise, when the rounded periods of the orators are ended, the last cheer given and the flags furled, the assembled patriots become possessed of the false idea that their full duty has been well performed. No more mischievous and disastrous scheme could be conceived, even by pacifists. There is cause for thankfulness that the selective conscription plan is devoid of heroes. The business of war is now a science. The creation of our conscript army will be carried on without cheers and speech making but, nevertheless, on a scale of efficiency never before attempted in our history.

Here in Kingston seventy men are needed for the local unit of the Tenth Regiment, whose ranks already have been reduced through the discharge of married guardsmen and which must be brought up to war strength within as short a time as possible. A city of more than 10,000 inhabitants unable to furnish a bare fourscore men in this national emergency! We have been told these many years of the fire of patriotism which burns in the veins of the men and women of Kingston, yet we see no indications of it in so far as single men from the ages of 18 to 45 years, eligible to guard service, are concerned. It may be that the fires are only banked, but it is high time the coals were raked. It may be said, and a poor pun at that, let the draft do it. But the need for these men is more immediate, as the selective conscription plan promises to be long drawn out with a draft to follow registration and exemptions to follow the draft. What is the matter with Kingston and Ulster County? Has the best blood of the pioneer patriot stock gone West, or is it a case of watchful waiting and taking chances on the draft?

So far the effort to organize a depot company is proceeding with the organization of committees, but the results are not yet available. For this local unit, what could be more effective than the utilization of the married men dropped from the roster of Company M to form the nucleus of a depot command and assist in the drilling of new members? If any duty which might be assigned to this body proves too arduous for these veterans, we believe their service could be terminated without affecting the standing of the home company. Certainly if we are to have the depot company that the Governor and Adjutant General are seeking under the law, action must

soon take the place of words or else the long delay incident to the selective draft will leave the home stations of the militia without a well-drilled substitute force from the time the regular guardsmen are mobilized in the State camps. Perhaps some of our Civil War veterans, out of the wealth of their experience, could do some effective missionary work in this direction and assist Captain Meagher, whose duties as an active officer are added to heavily through his part in the Home Defense Committee's work. At present, many seem to be at sea as to answering the call to the colors. Kingston eventually must do its part. Why not voluntarily at the present time, so that such volunteers may be credited against the quota to be drafted in Ulster, as the law provides?

"I'm ready whenever they send for me," was the comment of a young man in an uptown store the other day when asked as to his intention to enlist. That attitude is quite general, yet there are scores of young men who have also expressed a desire to prepare for conscription through military drill and be ready for the draft when it comes. Here, it seems to us, is a great opportunity for a depot company in which these young men could enlist for militia duty, receive military training and be ready for conscription if it falls to their lot to be drafted. With this instruction, they would not only be capable militiamen but would be more efficient soldiers. The selective conscription of 500,000 men is not going to be the last draft. There will be more of it. The need of the hour in Kingston is a real depot company, organized under the law and with real military drill under competent instructors. With such an organization formed, we believe that young men will not be backward about enrolling for duty within the State and taking advantage of an opportunity for instruction before conscription. Certainly the situation requires the taking of immediate steps to form an adequate depot company.

LITTLE LAUGHS.

Edith—"I didn't accept Harry the first time he proposed." Edith—"No, dear, you were not present."—Puck.
Flubdub—"Why do you watch young Grotz go closely? Are you afraid he is going to elope with your daughter?" Hardup—"No; I'm afraid he isn't."—Life.
Wife—"How many times have I told you not to play poker?" Hub—"But, my dear, I won last night." Wife—"Well, why didn't you say so before?"—Buffalo Express.
"There's a man planting potatoes," said Farmer Cornstossel, "when he begins to be plumb gone." "You don't approve of gardening?" "Yes, I do. But if he'd go ahead and play golf he wouldn't be spoiling good potatoes that somebody could use."—Washington Star.

Tony.
Ten, twenty years hence, when Wall Street's history is being rewritten, there might be included among the successful brokers a certain individual called Tony, but his name won't be Tony then.

He polishes shoes in a building near the Stock Exchange. Tony looks four times at a coin of the realm before returning it to circulation, and his friends say he owns tenements.
One morning Tony was putting a de luxe finish on a broker's shoes on the sixteenth floor. The tinker near by was grinding out quotations.
"Ah," said the broker, "Anaconda up to \$0 1/2."
Tony touched him on the arm. "Can I use your telephone," asked the henchman. "It is important."
"Certainly," replied the broker. "Go ahead."
It didn't take Tony long to send his message. When he emerged from the booth the broker queried, "Tony, would you mind telling me why you telephoned in such a hurry?"
"All right," Tony replied, with a smile, "but don't tell the boss. I telephoned to my broker on the eighth floor. When I was in their office just a few minutes ago, I figured Anaconda was low so I bought 20 shares at 78 and just sold it."
Tony is still polishing shoes.—Wall Street Journal.

He Was Far-Sighted.
An ambitious colored man had quit his job and was being granted a new one with another concern, when his employer asked him if he could be ready to commence work in two weeks. He replied: "I fear that would be difficult for me to be ready in two weeks, but I could be ready in one week shore."
"How's that?" asked his employer.
"Well, in one week I can finish de garden work," was his answer. "But if I is home then one week more de missus would be rushin' me into de middle of 'house-cleasin'."—The Christian Herald.

KANSAS WHEAT CROP WORST IN 20 YEARS

By Telegraph to The Freeman.
Topeka, Kan., May 25.—The May crop analysis of the state board of agriculture says the Kansas wheat crop will be the lowest in 20 years. The prospective yield of winter wheat is given as only 40,000,000 bushels despite reports indicating the acreage is the largest ever sown to a single crop in this state.

The condition of corn is given as 79.3 per cent normal, or 6.8 per cent lower than last year.

"Get Ahead!"

(By Douglas Fairbanks.)
I have been asked, for some time, to explain what it means and why everybody should be not only more than willing, but most anxious, to fill out quickly the blanks that they will be asked to use.

I myself am especially eager to do this for a great many reasons. Our country is at war with Germany. And—well, I have been in Germany. I have seen how she does things, and I know that if we want to wage a successful war against her we will have to begin to do things as well as she does.

Germany knows every fundamental fact about every man and woman and child in the empire. She knows where every horse is, and every motor, and every bit of supplies of every kind. She can lay her hands on whatever she wants of all these men and of all these materials whenever she happens to want it. This ability is one of the greatest points of her remarkable efficiency, and I realize that if America hopes to make a successful war against Germany, America, too, will have to have men and materials where they can all be utilized to the best military advantage.

And another startling thing is that it is just the lack of this inventory and just the failure to have things when and where you need them that has made all the tremendous and the many great failures in the moving picture business. There has been a lack of system, and a lack of system always means waste.

Waste in a business is fatal only to those engaged in that business, but waste in a nation is fatal to the nation.

So I want to urge everybody to feel this matter just as I feel it. And when the day comes to appear at the polls and fill out the blanks that the state wants to fill in, I'm going to see how few people I can find in the line ahead of men and how many behind.

Will you try that with me? Remember, it's for our country!

WILL POWER.

No one likes the dead eyed man whose face shows that he has tasted the drags in the bottom of the cup of experience, but William Maxwell, writing in Collier's, says there is an attraction in the level eyes of the man who has seen the drags and pushed the cup away.

Startled Schumann.

An amusing story of Schumann is told by a Vienna critic. The composer once accompanied his wife, who was even then a celebrated pianist, to the palace when she went to play before the king of Holland and was gratified by the monarch's compliments of her performance. The composer was somewhat surprised, however, when the king turned to him and courteously inquired, "Are you also musical?" They say Schumann was so indignant that he never spoke for an hour.

The Whale's Appetite.

A whale's appetite is phenomenal. His chief diet consists of jellyfish. He has simply to open his mouth and paddle along leisurely in order to take in jellyfish by the wagon load. Such is the method adopted by the whalebone whale. The sperm whale, on the contrary, captures huge squids weighing often several tons. Like his brother the whalebone whale, he must be constantly on the lookout for food; otherwise he would starve. As many as fourteen seals have been taken from a thirty foot "killer."

SCHWARTZ HAS TO PAY FOR DAMAGES

City Judge Brinnier Hands Down De-
cision That Schwartz Has to Pay
Mr. Balzam \$31.50 for Damaging
Apartments.

This morning in city court City
Judge William D. Brinnier, Jr., hand-
ed down a decision in the case of
Jacob Balzam against Louis Schwartz
awarding Mr. Balzam \$31.50 dam-
ages and costs. This case was re-
cently tried before City Judge Brin-
nier in city court by Henry Klein
with J. M. Fowler of counsel, for Mr.
Balzam, and M. O. Auchmoody for
Mr. Schwartz.

From the evidence produced at the
trial Mr. Balzam recently bought the
property at No. 90 Broadway, apart-
ments in the property being occupied
by the Schwartz family. Mr. Balzam
gave Mr. Schwartz thirty days' notice
to vacate. After Mr. Schwartz had
vacated the apartments Mr. Balzam
made the discovery that some one
had cut all the window cords, mared
the wood work with lighted matches
or candles and torn the wall paper
off the walls and threw some black
liquid on the walls.

Mr. Balzam had estimated of the
damage and brought suit against Mr.
Schwartz.

The Word "Amen."

The word "amen" literally means
"true." Used as a substantive, "that

the priest or the master of the house.
The custom was carried into the early
Christian church.

C. OF C. PLANNING A CREDIT BUREAU

Committee at Work on New Institution Which Will Eliminate Loss of Uncollectible Accounts—The Plan as Outlined

Some time ago President Leighton, of the Kingston Chamber of Commerce appointed a committee to consider the advisability of establishing a credit bureau as a part of the official program of work. The need of such a bureau had been emphasized by several members of the Chamber on the "Write it Down" blanks which had been mailed to every member the first of the year. It making its report the committee said:

It has required no great amount of investigation to convince us that such a bureau would be of great advantage to the merchants of Kingston and that the Chamber of Commerce is the proper agency to establish and operate it. The losses of retail merchants due to uncollectible accounts and the expense of collecting slow accounts is probably in the neighborhood of two per cent of their gross sales. If this loss could be cut in half a credit bureau would more than pay for itself. Such a bureau will also prove an effective aid toward thrift and self respect.

In accordance with the recommendation of the preliminary committee the directors voted to establish a credit bureau and appointed the following committee to work out the best possible plan:

S. M. Watts, chairman Watts & Tammany

J. C. Gregory Gregory & Company

A. E. Rose Rose-Gorman Rose Inc.

Nicholas Stock Stock & Corliss

Wesley Waterbury J. T. Johnson (Broadway store)

A careful investigation of the methods used in other cities and commercial organizations has been made and the committee feel that the plan as now adopted for the conduct of this bureau based on the experience of other successful bureaus cannot fail to prove efficient if the merchants of the city for whose benefit the bureau is established will give their hearty co-operation to the movement.

The bureau will be conducted at the offices of the Chamber of Commerce 714 Broadway and any member in good standing of the Kingston Chamber of Commerce may secure without charge the advantages and service of the bureau by signing an application for enrollment and agreeing to abide by the following rules and regulations:

1.—To co-operate with the bureau by furnishing within a reasonable time on printed sheets provided by the bureau a list of his credit customers listed according to the actual ledger experience of the member.

2.—To furnish the bureau from time to time with such information as may be deemed essential for the accuracy and efficiency of the bureau.

3.—To consider all ratings and other information secured from the bureau as strictly confidential and for the use of the member only. As soon as this application for enrollment is filed the necessary blanks will be furnished on which each member will make an alphabetical list of his credit customers for the last two years taken from his ledger. From this data rating cards will be made up each member being given a number known only to those in charge at the office. All information will be kept strictly confidential and the members will have the privilege of calling up headquarters at any time during regular office hours. In responding to request for information only facts as secured from the latest report will be given a simple rating key being used and no mention will be made of the source of the information.

The application cards are now in the hands of the above mentioned committee and every merchant in the city who desires the service of this bureau should call on some member of the committee or apply to the Chamber of Commerce (phone 504). The success of this bureau will depend upon the measure of co-operation which the merchants themselves are willing to give to the committee in charge.

BOY SCOUTS PLAN CITY ORGANIZATION

Council Formed to Carry Out Vigorous Program in Behalf of Kingston Boys—Statement of Scout Movement's Objects.

A council has been organized in the city of Kingston to carry on the work of organizing boys into troops for Boy Scout work. The aims of this movement are to make good citizens of all our boys.

The world interest in the Boy Scout movement challenges the intelligent understanding of everyone, and yet many people still ask: "What is Scouting?" "What do Boy Scouts do?" Scouting means outdoor life and so health, strength, happiness and practical education. It develops the power of initiative and resourcefulness. It helps boys. It insures good citizenship. The Boy Scout movement healthfully and sanely offsets the disadvantages which civilization has caused.

It seeks to help boys on leaving school to escape the evils of "blind alley" occupations—that is, such work as give the boy a mere wage for the moment, but leave him stranded without any trade or handicraft to pursue when he is a man and so send him as a recruit to the great army of unemployed and, what is worse, the unemployable.

Scoutcraft includes instruction in first aid, life saving, tracking, signaling, cycling, nature study, seamanship, campcraft, woodcraft, chivalry and all the handicrafts. No expensive equipment is required. All that is needed is the out-of-doors, a group of boys and a competent leader. By combining wholesome, attractive, outdoor activities with the influence of the scout oath and law, the movement develops character. In scouting the boy does not stand still. The opportunity and incentive for progress is always at hand.

He becomes a tenderfoot and then a second class scout, and then a first class scout. After this the whole sphere of the scout program is made available by the boy's own application in qualifying himself to pass the test for the various merit badges.

As a Scout the boy willingly adopts as real and vital the universally accepted principles of life as set forth in the scout oath and law.

As an organization the scout move-

ment is neither military in thought, form or spirit, although it does instill the military virtues such as honor, loyalty, obedience and patriotism.

The Boy Scouts of America, as an organized body recognize the religious element in the training of a boy, but is absolutely nonsectarian in its attitude toward religious training. Its policy is that the religious organization or institution with which the Boy Scout is connected shall give definite attention to his religious life. If he be a Catholic Boy Scout, the Catholic Church, of which he is a member is the best channel for his training. If he be a Hebrew boy, then the Synagogue will train him in the faith of his fathers. If he be a Protestant, no matter to what denomination of Protestantism he may belong, the church of which he is an adherent or member should be the proper organization to give him an education in the things that pertain to his allegiance to God.

With the support of the citizens of Kingston, the council will endeavor to secure a competent executive with offices located in the center of the city and establish training grounds in the city both up town and down town. A camp has been established on Senator Charles Walton's farm which will accommodate forty scouts which they expect to enlarge to accommodate 200 to 300. They also expect to establish other camps to accommodate 50 to 100 each. A meeting was held in the Council Chambers, Thursday evening, Senator Walton presiding. Lively interest was manifested by all members of the council.

The council expect to organize troops in all churches and community groups for the boys that are not affiliated with any church organization. They would ask all boys in this class who wish to become scouts to send their name, age, and address to temporary headquarters, 243 Fair street, so that they may be properly grouped in the community troops.

Memorial Day Parade Notice.

Ira Britt, secretary of the great Memorial Day parade and celebration, is very anxious that every organization that intends to take part in the parade and has not already notified him, do so at once so that it may get its position in line, also Mr. Britt wants eight automobiles donated for the use of the G. A. R. in the parade. It will be one of, if not the largest, Memorial Day parade ever held in this city. Every residence in the city should be decorated and especially should every building from the Academy green down Broadway to Chestnut street along the line of march have the glorious Star Spangled Banner waving.

Vigorous Fanning.

Fans have not always been dainty trifles. Jean de Balzac, a French writer of the seventeenth century, wrote from Italy during the reign of Louis XIV. of the enormous fans in use there suspended from the ceiling and worked by four servants. He says, "I have a fan that makes wind enough in my chamber to wreck a ship."

There is a little monogram
We see where we go;
It offers us protection
Against a foreign foe.
It stands for light and progress
In every foreign clime.
And its glory and its greatness
Are the themes of many a rhyme.
But few have ever really known
And few would ever guess
What our country means by marking
All her chattels with U. S.
It may stand for United States,
Or yet for Uncle Sam;
But there's still another meaning
To this simple monogram.
We see it on our bonds and bills,
And on our postal cards;
It decorates our Capitol,
In all our barracks, posts, and forts
It plays a leading part,
And the jolly sailor loves it
And enshrines it in his heart.
Now have you guessed the message
Which these mystic letters bear?
Or recognized the untold good
They're spreading everywhere?
Echo the joyful tidings,
And let the people know
That the U. S. of our nation means.

BEAUTIFUL FOOTWEAR

Never has Footwear played such an important part in the attire of the ladies as it does at present. Style, beauty, fit and comfort are insisted upon today, as the most noticeable feature of woman's attire is her shoes.

The men of today also insist upon more individuality in their footwear than ever before. With the immense assortment we now have on hand we know we can please nearly all the critical buyers of Kingston. Our careful attention to perfect fitting insures your greatest comfort and makes your shoes wear longer and keep their shape better.

Our early purchases mean a liberal saving to all our customers as all footwear costs much more today than when we purchased our present stock.

For Ladies

Stylish Pumps in the fashionable colors, as well as black, so constructed as to sit snugly at the heels and sides.

New styles in high cut shoes, in black and many fashionable color combinations.

An assortment of white shoes and pumps, twice as large as any we ever had in the past.

All of the above at a range of prices to fit every purse.

For Men

The new cherry shades of tan oxfords and shoes for men are attracting very favorable attention and they are certainly handsome. The conservative man can find his preference as well as the man desiring the latest style, among the large variety of shapes we are offering this season.

For Children

Children's feet need more careful fitting than yours do, that have their growth, for they have to be fitted with the thought uppermost, "will the shoe insure the future foot comfort by allowing the foot the proper unhampered growth it should have." Our children's shoes are constructed on nature shaped lasts and our expert fitting insures your getting for your little ones the proper size and width.

The little ones can be fitted here with white or black pumps, Oxfords, or shoes of plain designs.

Important Small Items

If you prefer to have your shoes polished to doing the work yourself, remember we have a polishing chair installed in our store for your convenience where just a moderate amount is charged to keep your shoes in perfect condition.

Our Hosiery Department for Ladies and Men contains the best wearing hosiery that is possible to get at the modest prices of 35c, 75c for ladies, and 30c and 50c for men.

Don't overlook our immense assortments of Polishers, Laces, Shoe Trees, Overgarters, Corn Cures, Rubber Heels, Arch Supporters, etc.

**GIVE THREE SONS
FOR WAR SERVICE**

Mr. and Mrs. Charles R. Ross of
 Kingston Doing Their Bit and
 Then Some—Two Other Sons to
 Buy Liberty Loan Bonds and Go
 on Farm.

Three of the five sons of Charles
 R. Ross, in charge of the office staff
 of Winston and Company, builders
 of the Ashokan reservoir, have en-
 listed in the First Reserve Engineer
 Regiment, now being recruited to
 help rebuild and operate the rail-
 roads behind the lines in France.
 For some time past Mr. Ross has
 been figuring on how best to do his
 "bit" but was surprised on Monday
 to learn that his oldest son had
 taken the "bit" himself and tried
 examinations for entrance in the
 First Engineers. On the heels of
 this, his next two sons announced
 their intention of following their
 older brother's example with the re-
 sult that this regiment will have
 three "brothers in arms" from this
 well known Kingston family.

The oldest, Donald B. Ross, aged
 23 years, stopped off in New York
 Sunday on his way back to a Bridge-
 port, Conn., factory where he holds
 a responsible position and on the
 following day successfully passed
 examinations at the recruiting office,
 190 Sixth avenue, New York. Since
 then, his brothers, William S. Ross,
 aged 21, and J. Gordon Ross, 19,
 have joined the same regiment.
 William S. Ross is a student at Gene-
 see Wesleyan at Lima, N. Y., where
 for two years past he has been an
 officer in the cadet corps. He at-
 tained a high standing on his ex-
 aminations on account of his drill ex-
 perience which will prove useful.
 All three of the boys have left for
 Fort Totten, L. I., where drill has
 been started preparatory to depart-
 ure some time in July. The first
 regiment recruited is expected to be
 the first to go and New York ex-
 pects this honor as only about 200
 men remain to be recruited.

Mr. Ross has two more sons,
 Harry W., aged 17, who is now doing
 his bit in a munitions factory at
 Springfield, Mass., and Richard S.
 Ross, aged 10, at home. Harry is
 planning to put his savings into
 Liberty Loan Bonds while the
 youngest is going out on a farm
 soon in order to assure sufficient
 food supply for his brothers. Mr.
 and Mrs. Ross reside at Washington
 and Linderman avenues. He has
 been connected with Winston and
 Company for a period of years and
 is also president of the Charles R.
 Ross Realty Company which owns
 the large tract overlooking the reser-
 voir known as Keewaydin and
 apartment houses in Brooklyn and
 at Hopewell, Virginia.

WALKER VALLEY.

Walker Valley, May 24.—Mrs.
 William Frampton, Sr., of Corona,
 L. I., is spending the week with
 Mrs. L. C. Cox.

Mr. and Mrs. Charles Mack of
 Walkill called on the latter's mother,
 Mrs. E. E. Morrow, Sunday.
 Miss Post, who is teaching at
 Pleasant Valley, spent Sunday at
 her home in Port Jervis.

Mr. and Mrs. D. C. Jansen, Mrs.
 Mattie Morrow and Miss Carrie
 Whelple motored to Middletown on
 Monday and spent the day with Ben-
 jamin Terwilliger and daughter,
 Sadie.

On Decoration Day a flag raising
 will be held in this place.
 James Kerr and sister of
 Patchogue, L. I., spent Monday in
 town.

Mrs. Margaret Barclay spent Wed-
 nesday in Brooklyn.

Mrs. Samuel Forbes is entertaining
 friends from the city.
 We understand that the new own-
 er of the Dayton farm moved in last

Mr. and Mrs. Ellis of Bullville

 C. Depey.

MORAN BUSINESS SCHOOL.

Young Women Already Replacing
 Men in Office Positions.

The scarcity of young men for
 clerical positions is becoming more
 apparent every day. The situation
 is unprecedented. Young women
 graduates are accepting positions
 formerly held by men who have for-
 saken their chosen professions in or-
 der to "do their bit" in the present
 emergency. The Moran Business
 School cannot begin to supply the
 demand for young men stenograph-
 ers, and it should not be overlooked
 that the situation will be even more
 acute when the draft provision takes
 effect. The sudden exit of boys for
 service in the militia and on the
 farms necessitates the employment
 of girls; the outlook for the latter is
 indeed bright.

Miss Jessie M. Martine, a graduate
 of the combined course, has been
 placed as bookkeeper, stenographer
 and typist with C. E. Hasbrouck,
 hardware, this city, through the
 Moran Free Employment Bureau.

Eugene A. Freer, who has been
 pursuing the combined course at the
 Moran School, left last week for Port
 Stoughton, having passed the necessary
 examinations for clerical service in
 the quartermaster's department of
 the army.

Miss Ruth A. Humphrey, a recent
 graduate, has secured an excellent
 position as stenographer and office
 assistant with the Consolidated Ros-
 endale Cement Co., 22 Ferry street,
 this city.

Miss Margaret Bleitsoffer, class of
 1915-16, has secured a good position
 in the office of Schultz & Bogart,
 Fair street.

The Moran Free Employment Bu-
 reau recently placed Miss Catherine
 McMahon as bookkeeper, stenograp-
 her and cashier in the newly opened
 Women's Bargain Shop, Wall street.
 The experience of the Moran
 School during the past month or two
 indicates conclusively that unless the
 younger men of the country wake up
 to their opportunities and learn ste-
 nography and bookkeeping, this line
 of work will be entirely in the hands
 of women before many months shall
 have elapsed. It appears that simi-
 lar conditions prevail throughout
 the country.

No doubt many firms will follow
 the example of the Pennsylvania
 Railroad Company and other large
 corporations in taking the necessary
 steps to offset any possibility of a
 "tieup" by making timely provision
 to substitute women in place of men
 wherever feasible.

SAUGERTIES.

Saugerties, May 25.—Bishop Greer, of the diocese of New York, will confirm a large class of candidates at Trinity Episcopal Church Sunday morning, June 10.

Dr. A. J. Norton of Main street has returned from Oswego, N. Y.

The annual commencement exercises of the Saugerties High School will take place in the assembly hall on Tuesday evening, June 26. Kenneth Peters is the salutatorian and Katherine Lamb will be the valedictorian.

Henry Dickhout on Wednesday received a pedigree English bull dog from a kennel on Long Island.

Mrs. A. J. Norton of Main street is visiting in Oswego, N. Y.

Mr. and Mrs. John Erkins and daughter, Lillian, of Brooklyn, are occupying Clermont Villa on Market street for the summer.

Mrs. Elsie Davis is ill at her home on the South Side.

Mrs. J. L. Disbrow of Market street is visiting in Kingston.

Smith Wland of Wappingers Falls is visiting in town.

ROSENDALE.

Rosendale, May 25.—The supper held in All Saints' parish house on Tuesday evening was well attended. Although the night was dark and stormy an auto party from Kingston came out to partake of the good things the ladies had prepared.

After supper music was furnished by Matman's orchestra for dancing, which was much enjoyed by the young folks. Altogether the affair was a financial success.

Mrs. Cornelia Bowen, who has been spending the winter with her daughter, Mrs. L. A. Meller, in Clifton, N. J., returned to her home in this village on Friday last.

Get Bread That's Pure!

In these days of food shortage and excessively high prices every home, boarding-house and hotel-keeper is studying methods to meet conditions so foreign to the days of peace and plenty. Unscrupulous producers are resorting to unwholesome adulterations and "food doctoring" to meet the demand for lower "cost of living." Might not many thousands of people be said to be "digging their graves with their teeth?" And is it not wisdom to tie to a pure, reliable food article like

FARMER BURGER GETS VERY BUSY

The big plot of ground in the rear of the Rose-Gorman-Rose store on North Front street, which it was at one time planned to make into a play ground, will shortly be producing bumper crops to help feed Kingstons. Guernsey Burger, an employee of the firm and a former resident of the town of Wawarsing, has secured the property for the summer and has decided to show the people of Kingston how to grow real crops. Profiting by his experience gained while on the farm he has had the ground broken up and has planted it to potatoes, about four bushels of seed being planted. Not being content with just potatoes, he is planning to follow out scientific methods and produce several crops on the ground. His system of intensive farming will permit potatoes to mature and after the final cultivation of this crop celery will be planted between the rows and finally a crop of turnips will be planted where his early tomato vines now are. The members of the firm of Rose-Gorman-Rose and the clerks in the store have already engaged their winter supply of potatoes and Mr. Burger intends to raise enough other vegetables to furnish the entire population of North Front street. Any surplus of vegetables will probably be sold at a special department in the big store.

SAVING AND INVESTING FOR VICTORY AND LIBERTY!

LIBERTY LOAN OF 1917

It is the duty of every individual, both rich and poor, to subscribe to the Liberty Loan. Subscribe for yourself, your wife and your children. If you are an employer advise your employees to subscribe. Lend them the money if necessary, holding their bonds as security to the loan. Your country needs your help. If you cannot go to the firing line, let your dollars fight for you.

SUBSCRIBE TO THE BOND!

Not next month, nor next year. Your country needs the money NOW. Remember! Germany will not wait for your convenience. Also remember, if you do not exercise your privilege of lending your money to the United States as a means to victory, Germany may compel you to subscribe to a greater bond issue for the purpose of paying indemnity, which she will levy on the people of the United States if she ever gets a chance. If the war is not prosecuted vigorously by us, Germany may get that chance.

Germany is three thousand miles away. Our allies are keeping her there.

"WE MUST DO OUR BIT"

Subscribe your share to the Liberty Loan--show the rest of the country that KINGSTON is alive to the gravity of the situation. United States Government Bonds are the safest investment on earth.

By subscribing to the Loan you can help your country and make a splendid investment at the same time.

BUY NOW!

Do not delay your subscription until you have the money. Two per cent only is payable when you subscribe. The balance is payable as follows:

JUNE 28, 18 Per Cent

JULY 30, 20 Per Cent

AUGUST 15, 30 Per Cent

AUGUST 30, 30 Per Cent

For example, one taking a \$100 Bond would pay \$2 down. On June 28th, he must pay \$18 additional; July 30th, \$20 more; on August 15th, \$30; and on August 30th, \$30. This proportion applies to the payment for bonds in any amount.

If the above dates do not fit the convenience of the subscribers, we will loan the money for any payment after the first one, and the subscribers may repay such loans at their convenience.

Liberty Loan Bonds are to be dated June 15, 1917, and will mature on June 15, 1947, but may be paid if the Government so desires, fifteen years after date of issue. They bear interest at the rate of 3½ per cent per annum. Coupon Bonds are issued in denominations of \$50, \$100, \$500 and \$1,000. Bonds registered as to principal and interest will be issued in denominations of \$100, \$500, \$1,000, \$5,000, \$10,000, \$50,000 and \$100,000.

SPARKS FROM THE WAR ANVIL

Wonderful Record Made by Maxwell Car

Two Maxwell cars, starting from Stuyvesant Garage covered an area of 30 9-10 and 31 2-10 miles respectively, to one gallon of gasoline attached to the carburetor of the cars by a one gallon tested tank suspended from the side of the car fastened to the windshield. The cars were standard cars, loaned by owners for this event and were not cars prepared for any great mileage. The one car carrying three passengers which covered 31 2-10 miles had been in service for nine months and during the winter the car was subject to some very hard service.

Although these cars were driven part way through the rain the mileage was considered wonderful and far surpassed our expectations.

Car No.	Owner	Observer	Observer	Mile Per Gallon

Mr. Kearney's car was driven by L. E. Chambers of the Stuyvesant Garage. Mr. Preston's car driven by himself. It has been proven that Maxwell cars are economical, durable and reliable. The test was made with Texaco Gasoline.

A Word About Comfort

"SOCONY!"

What you get out of your car depends to a large extent upon what you put into it.

Just as a matter affecting your own comfort it pays to get only the best gasoline—SOCONY.

There is no gasoline more highly refined or more powerful than SOCONY. And it is the only gasoline which is always the same, wherever you buy it. That means a welcome freedom from faulty carburetion.

Look for the Red, White and Blue SOCONY Sign. It insures you more miles to the gallon and more power to the mile.

CHARCOAL FIRES

JAPAN CORNERING SUPPLY OF GOLD

By Telegram to The Freeman.

Washington, May 25.—Evidence that Japan is making a concerted effort to accumulate vast quantities of gold, is in the hands of treasury department officials today.

The Japanese government has sent numerous agents to the United States, the treasury department has learned, to gather up gold certificates. These have been taken to sub-treasuries and the actual metal demanded in exchange.

Since June 1 the gold shipments from San Francisco to Japan have aggregated \$35,000,000—an unprecedented amount—unaccounted for by the balance of trade or the natural currency exchange.

The object of the maneuver has not been determined by treasury department officials.

C. of C. This Evening.

"Pay up Week" and the proposed Credit Bureau will be discussed at a meeting of the Chamber of Commerce at the city hall this evening.

FINANCIAL AND COMMERCIAL

By Telegram to The Freeman.

New York, May 25.—United States Steel Common led the stock market today in a burst of activity in which the bulls ruled, bidding the market leader up 5 points to a new high record at 133 1/2, during a mad opening hour, when nearly a half a million shares were traded. At its top figure, Steel Common showed a gain of more than 11 points since last Saturday's close, and nearly 18 points in two weeks, recalling the "war bride" performances of many months back. The demand for stocks became broader and more pronounced after the first 15 minutes with the trading in Steel Common continuing in large volume, during the hour 157,000 shares of steel were traded. There were numerous buying orders of 10,000-share blocks executed, carrying up the price to 133 1/2, shortly after 11 o'clock. Nearly all the other steel issues moved up to new high figures for the year, with general upturns of about 2 points. The sugar stocks also made gains of about 2 points. New Haven moved up 2 points to 36 and Reading 1 point to 34 1/2. Atlantic Gulf and W. I. made a gain of 3 1/2 to 108, and Marine Preferred advanced 2 1/2 to 83 1/2. Industrial Alcohol was in scant supply, moving up 3 1/2 to 135 1/2. Money loaning at 2 1/2 per cent.

There was another vigorous upward movement in the stock market in the late afternoon, on which a number of stocks were established at new high levels. Utah Copper made an advance of 2 points to 118 1/2, and Anaconda showed a gain of 2 1/2, with sales at \$6. Inspiration rose to \$5, a gain of nearly 3 points, and Kennecott sold at 49 1/2, a gain of over two points in all. Sales to 2 o'clock were 1,291,000 shares, of which 307,000 were Steel, which ranged below 133 in the late afternoon.

Joy In Trying.

Do not allow yourself to just drift along through life. Set before you an aim, some real purpose. Cultivate hope and ambition to accomplish something. Do not be contented to let things happen; make things happen. Whatever your business or occupation aim to excel in it. Financial gain is not all one gets from labor well performed. Your character is elevated and your mind is enlarged, and the satisfaction in having done well is the most real joy. Don't be afraid to set your aim high. Glid it with your highest ideals. Let the hope of its attainment nerve you every act. Turn incidents and circumstances toward the attainment of your aim. If you have no aim you reach nowhere. A life without a purpose is a dreary thing, without real joy. Suppose you fail to reach the heights you have set as your standard; you will have gone higher than if you had not striven. You will be more useful, of more worth, than if you had not tried. —Milwaukee Journal.

An Expert In Motives.

Cousin Henry is an expert in motives. If you were reading off a list of names and overlooked Henry he would understand. He would know exactly the motive that prompted you to do it. If you don't think to introduce him to the man who is with you he can see through it. He may have to go back four or five years, but he will make a complete case against you. In less than an hour he will know what your motive was. Right now he is angry because his daughter was not selected as valedictorian of her class. You may think that the other girl deserved to be selected, but you don't know all that Henry knows. It is a long story, but he is willing to tell it to you, and after hearing it you will understand the motive—you will understand that it is a case of spite work. —Claude Cailien in Fort Worth Star-Telegram.

Hew David Garrick Made His Fortune.

If David Garrick had had no more than his salary as an actor he would have had little to leave at his death. He made his fortune as joint proprietor and for a time as sole proprietor, of Drury Lane theater, so that the amount set down to himself as salary was practically nominal. When he retired from the stage in 1776 he held half his share in the theater for £35,000. He was probably the only actor who consistently made Shakespeare pay, and, like Shakespeare, he was actor, author and proprietor.

It may be recalled that Garrick, who had no enemies outside his own profession, was the grandson of a Frenchman exiled at the revocation of the edict of Nantes and that his father was a captain in the army.—London Standard.

Becoming.

"Isn't my new dress becoming to me?" asked the delighted wife.

"Yes," replied the head of the establishment, "and I suppose the bill for it will soon be coming to me."

Insects and Crops.

An annual loss of crops from insects in the United States is estimated at \$1,200,000,000. In view of this every one ought to encourage a bigger force of bird police.

PERSHING APPEALS
FOR RED CROSS AID

People Do Not Realize the Seriousness of the Situation and the Work and Responsibility Needed.

By Telegram to The Freeman.

Washington, May 25.—Introduced by Former President Taft as a man who would rather face a battery than an audience, General Pershing, who will lead the first American troops into France, received an ovation to-day at the second meeting of business men from all parts of the country, called to Washington to outline the big Red Cross campaign. General Pershing made the large audience sit up sharply when he declared that the feeling among the people regarding this war was lax.

"They have not begun to realize that we are in this great war," he said. "I have just come from Texas, where they say, 'Oh, well, we haven't lost anybody or any battleships and we don't really feel that we are at war.' I put the question to all such men, 'Do you realize that we must take the places of every man who is killed among the allies? That we must support their widows and orphans? If not, who is going to do it?' So you men here can do no greater work than to start this great Red Cross movement and bring to the people a full realization of the seriousness of this war. You must make them feel that we are in this to stay and the probability is that our entering the war is going to be the deciding factor and the burden of success is going to rest on the United States."

Not a Spy Service.

A large number of people seem to be under the impression that there is to be established in the office of attorney general a secret service organization of the United States government. This is not true. The powers of the attorney general in the matter of investigations and inquiries have been broadened by an act of the legislature which the governor has recently approved and an appropriation has been made for the purpose of enabling the attorney general to conduct such investigations and inquiries as may in his judgment be necessary or as may be directed by the governor. Neither the governor nor the attorney general has any intention of using the powers conferred or the money appropriated for the establishment of a permanent force of investigators or secret service men.

PLANS FOR PARADE
ON MEMORIAL DAY

At a meeting of the Home Defense Committee held Thursday evening a number of the organizations which will take part in the big Memorial Day parade next Wednesday signified their intention of participating as a body. Beside the people who will march with their lodges or organizations a large number will participate in the citizen's division of the parade. The woman's division, which will be one of the features of the parade, is attracting considerable attention and Grand Marshal D. G. Atkins estimates that there will be approximately 3,000 people in line on Memorial Day.

At the meeting Thursday evening plans were discussed for the mammoth parade and Marshal Atkins is busy arranging the details. There will be several bands of music in the line of marching patriotic airs and a number of floats designed along patriotic lines will be a feature.

One of the novel features will be the division of high school girls dressed in white and wearing red, white and blue caps. The girls have been organized and placed into companies under the direction of the teachers of the school and for several weeks past have been drilled under the direction of Mr. Atkins.

The societies and organizations which have so far signified their intentions of participating in the parade are:

Kingston Council, No. 55, United Commercial Travelers.

Kingston Political Equality Club.

Charles DeWitt Council, No. 91, J. O. U. A. M.

Board of Aldermen.

Federation of Women's Club.

Kosciusko Lodge, I. O. O. F.

Washington Camp, No. 1, P. O. S. of Company M.

Ulster County Farm Bureau Association.

Vanderlyn Council, Daughters of America.

Kingston Council, Knights of Columbus.

Tappan Camp, Sons of Veterans.

Auxiliary Camp, Sons of Veterans.

Kingston Lodge, Loyal Order of Moose.

High school boys.

High school girls.

Spanish War Veterans.

Old Guard of Ulster County.

Boy Scouts.

Board of Education.

Beside these organizations there are several others still to be heard from. All of the city and county officials are also requested to meet at the city hall on May 30, at 10 o'clock and be assigned to their places in the ranks. The details of the parade and the places in line have not yet been determined by Grand Marshal Atkins and on account of the great deal of work it will still be some time before this work is completed.

KANSAS WHEAT CROP WORST IN 20 YEARS

By Telegraph to The Freeman.
Topeka, Kan., May 23.—The May crop analysis of the state board of agriculture says the Kansas wheat crop will be the lowest in 20 years. The prospective yield of winter wheat is given as only 42,000,000 bushels despite reports indicating the acreage is the largest ever devoted to a single crop in this state.

The condition of corn is given as 75.4 per cent normal, or 6.1 per cent lower than last year.

"Get Ahead!"

(By Douglas Fairbanks)
I have been asked to say something about the census and inventory of resources that is about to be taken to explain what it means and why everybody should be not only more than willing, but most anxious, to fill out the blanks that they will be asked to so use.

I myself am especially eager to do this for a great many reasons. Our country is at war with Germany. And—well I have been in Germany. I have seen how she does things, and I know that if we want to wage a successful war against her we will have to begin to do things as well as she does.

German knows every fundamental fact about her man and woman and child in the empire. She knows where every horse is and every motor and every bit of supplies of every kind. She can lay her hands on whatever she wants of all these men and of all these materials whenever she happens to want it. This ability is one of the greatest points of her remarkable efficiency and I realize that if America hopes to make a successful war against Germany America too will have to have men and materials where they can all be utilized to the best military advantage.

And another startling thing is that it is just the lack of this inventory and just the failure to have things when and where you need them that has made all the tremendous and the many great failures in the moving picture business. There has been a lack of system and a lack of system always means waste.

Waste in a business is fatal only to those engaged in that business but waste in a nation is fatal to the nation.

So I want to urge everybody to fill out this matter just as I feel it. And when the day comes to appear at the polls and fill out the blanks that the state wants us to fill in, to see how few people I can find in the line ahead of me and how many behind.

Will you try that with me? Remember it's for our country.

No one likes the dead eyed man whose face shows that he has tasted the drops in the bottom of the cup of experience, but William Maxwell, writing in Collier's, says there is an attraction in the level eyes of the man who has seen the drops and pushed the cup away.

Startled Schumann.

An amusing story of Schumann is told by a Vienna critic. The composer once accompanied his wife, who was even then a celebrated pianist, to the palace when she went to play before the king of Holland and was gratified by the monarch's compliments of her performance. The composer was somewhat surprised, however, when the king turned to him and courteously inquired: "Are you also musical?" They say Schumann was so indignant that he never spoke for an hour.

The Whale's Appetite

A whale's appetite is phenomenal. He can eat 40,000 pounds of fish in a day. He has simply to open his mouth and pack along leisurely in order to take in a jellyfish by the wafer load. Such is the method adopted by the whalebone whaler. The sperm whale, on the contrary, captures huge squids weighing often several tons. Like his brother the whalebone whaler he must be constantly on the lookout for food, otherwise he would starve. As many as fourteen squids have been taken from a thirty foot blubber.

Ralph Clearwater of the New York Telephone Company received notice today that the company has adopted a plan under which every employee from office boy up, can purchase one or more Liberty Loan Bonds on easy payments. The plan will be followed by all telephone companies in the Bell system, which means that 180,000 telephone workers will have an opportunity to obtain a bond.

The telephone company will purchase the bonds for its workers, who will pay for them in weekly or monthly installments, according to the size of the bond, during a period extending over one year.

Spring Time Recipes.

Three spring-time recipes are offered by the home economics department of the state college of agriculture, which urges, in its campaign for thrift, the use of all possible sources of food.

Rhubarb for next winter.—Sauces and pies from rhubarb are assured next winter to those who will park rhubarb tightly into a jar and then fill the jar overflowing with a hot heavy syrup made with twice as much sugar as water. Afterwards adjust the rubber and lid and partly seal the jar. Sterilize the jars for fifteen minutes on a rack in a covered pan of vigorously boiling water. The water in the pan should come an inch above the top of the jar. Seal and remove the jars, invert them on a cloth until they are cool and then store them away in a cool, dark place. This will make a good pie filling or sauce for next winter.

Dandelion and tomato sauce.—Make a tomato sauce of 2 tablespoons of butter, 2 of flour and 1/2 cupful of strained tomatoes. To this add cooked dandelions seasoned with pepper and salt, and mix them well with the sauce. Turn the mixture in the shape of a mound on a plate, and garnish it with sliced hard-cooked eggs or thin slices of tomato.

Dandelion soup.—Take 1 cupful dandelion pulp, 1 tablespoonful each of butter and flour, 1 cupful milk and the yolk of a hard-cooked egg. Make a white sauce and add to the dandelion pulp. Just before serving add the yolk of egg, which has been pressed through a sieve.

SAWKILL.

SCHWARTZ HAS TO PAY FOR DAMAGES

City Judge Brinnier Hands Down Decision That Schwartz Has to Pay Mr. Balzam \$31.50 for Damaging Apartments.

This morning in city court City Judge William D. Brinnier, Jr., handed down a decision in the case of Jacob Balzam against Louis Schwartz awarding Mr. Balzam \$31.50 damages and costs. This case was recently tried before City Judge Brinnier in city court by Henry Klein with J. M. Fowler of counsel, for Mr. Balzam and M. O. Auchmoody for Mr. Schwartz.

From the evidence produced at the trial Mr. Balzam recently bought the property at No. 90 Broadway, apartments in the property being occupied by the Schwartz family. Mr. Balzam gave Mr. Schwartz thirty days' notice to vacate. After Mr. Schwartz had vacated the apartments Mr. Balzam made the discovery that some one had cut all the window cords, married the wood work with lighted matches or candles and torn the wall paper off the walls and threw some black liquid on the walls.

Mr. Balzam had estimated of the damage and brought suit against Mr. Schwartz.

He Guessed Wrong.

If somebody says that your poetry is no good don't worry. Great bards have been underestimated at all times. When Milton's "Paradise Lost" was published the poet Walter wrote: "The old blind schoolmaster, John Milton, hath published a tedious poem on the fall of man. If its length be not considered a merit it has none." — Ex.

Blessed Immunity.

Ethel surprised her mother by her interest in a statue of the Venus of Milo. "Oh, I wish I was that lady!" she exclaimed. "Why, dear?" her mother asked. "Cause then people wouldn't always be saying to me, 'Don't bite your nails, dear!'" — New York Times.

The Word "Amen."

The word "amen" literally means "true." Used as a substantive, "that which is true" or "the truth." In the synagogues and private houses of the Hebrews it was customary for the people or the members of the family to say "amen" to the prayers offered by the priest or the master of the house. The custom was carried into the early Christian church.

BOY SCOUTS PLAN CITY ORGANIZATION

Council Formed to Carry Out Vigorous Program in Behalf of Kingston Boys—Statement of Scout Movement's Objects.

A council has been organized in the city of Kingston to carry on the work of organizing boys into troops for Boy Scout work. The aims of this movement are to make good citizens of all our boys.

The world interest in the Boy Scout movement challenges the intelligent understanding of everyone, and yet many people still ask: "What is Scouting?" "What do Boy Scouts do?" Scouting means outdoor life and so health, strength, happiness and practical education. It develops the power of initiative and resourcefulness. It helps boys. It insures good citizenship. The Boy Scout movement healthfully and safely offsets the disadvantages which civilization has caused.

It seeks to help boys on leaving school to escape the evils of "blind alley" occupations—that is, such work as give the boy a mere wage for the moment, but leave him stranded without any trade or handicraft to pursue when he is a man and so send him as a recruit to the great army of unemployed and, what is worse, the unemployable.

Scoutcraft includes instruction in first aid, life saving, tracking, signaling, cycling, nature study, seamanship, campcraft, woodcraft, civility and all the handicrafts. No expensive equipment is required. All that is needed is the out-of-doors, a group of boys and a competent leader. By combining wholesome, attractive, outdoor activities with the influence of the scout oath and law, the movement develops character. In scouting the boy does not stand still. The opportunity and incentive for progress is always at hand.

He becomes a tenderfoot and then a second class scout, and then a first class scout. After this the whole sphere of the scout program is made available by the boy's own application in qualifying himself to pass the test for the various merit badges.

As a Scout the boy willingly adopts as real and vital the universally accepted principles of life as set forth in the scout oath and law.

As an organization the scout move-

ment is neither military in thought, form or spirit, although it does instill the military virtues such as honor, loyalty, obedience and patriotism.

The Boy Scouts of America, as an organized body recognizes the religious element in the training of a boy, but is absolutely nonsectarian in its attitude toward religious training. Its policy is that the religious organization or institution with which the Boy Scout is connected shall give definite attention to his religious life. If he be a Catholic Boy Scout, the Catholic Church of which he is a member is the best channel for his training. If he be a Hebrew boy, then the Synagogue will train him in the faith of his fathers. If he be a Protestant, no matter to what denomination of Protestantism he may belong, the church of which he is an adherent or member should be the proper organization to give him an education in the things that pertain to his allegiance to God.

With the support of the citizens of Kingston, the council will endeavor to secure a competent executive with offices located in the center of the city and establish training grounds in the city both up town and down town. A camp has been established on Senator Charles Walton's farm which will accommodate forty scouts which they expect to enlarge to accommodate 200 to 300. They also expect to establish other camps to accommodate 50 to 100 each. A meeting was held in the Council Chambers, Thursday evening, Senator Walton presiding. Lively interest was manifested by all members of the council.

The council expect to organize troops in all churches and community groups for the boys that are not affiliated with any church organization. They would ask all boys in this class who wish to become scouts to send their name, age, and address to temporary headquarters, 243 Fair street, so that they may be properly grouped in the community troops.

Memorial Day Parade Notice.

Lia Britt, secretary of the great Memorial Day parade and celebration, is very anxious that every organization that intends to take part in the parade and has not already notified him, do so at once so that it may get its position in line.

Mr. Britt wants eight automobiles donated for the use of the G. A. R. in the parade. It will be one of the largest Memorial Day parades ever held in this city. Every residence in the city should be decorated and especially should every building from the Academy green down Broadway to Chestnut street along the line of march have the glorious Star Spangled Banner waving.

GIVE THREE SONS FOR WAR SERVICE

Mr. and Mrs. Charles R. Ross of Kingston Doing Their Bit and Then Some—Two Other Sons to Buy Liberty Loan Bonds and Go on Farm.

Three of the five sons of Charles R. Ross, in charge of the office staff of Winston and Company, builders of the Ashokan reservoir, have enlisted in the First Reserve Engineer Regiment, now being recruited to help rebuild and operate the railroads behind the lines in France. For some time past Mr. Ross has been figuring on how best to do his "bit" but was surprised on Monday to learn that his oldest son had taken the "bit" himself and tried examinations for entrance in the First Engineers. On the heels of this, his next two sons announced their intention of following their older brother's example with the result that this regiment will have three "brothers in arms" from this well known Kingston family.

The oldest, Donald B. Ross aged 23 years, stopped off in New York Sunday on his way back to a Bridgeport, Conn., factory where he holds a responsible position and on the following day successfully passed examinations at the recruiting office, 190 Sixth avenue, New York. Since then, his brothers, William S. Ross, aged 21, and J. Gordon Ross, 19, have joined the same regiment. William S. Ross is a student at Geneva Western at Lima, N. Y. where for two years past he has been an officer in the cadet corps. He attained a high standing on his examinations on account of his drill experience which will prove useful. All three of the boys have left for Fort Totten, L. I., where drill has been started preparatory to departure some time in July. The first regiment recruited is expected to be the first to go and New York expects this honor as only about 200 men remain to be recruited.

Mr. Ross has two more sons, Harry W. Ross, 17, who is now doing his bit in a munitions factory at Springfield, Mass., and Richard S. Ross, aged 10, at home. Harry is planning to put his savings into Liberty Loan Bonds while the youngest is going out on a farm soon in order to assure sufficient food supply for his brothers. Mr. and Mrs. Ross reside at Washington and Lindenman avenues. He has been connected with Winston and Company for a period of years and is also president of the Charles R. Ross Realty Company which owns the large tract overlooking the reservoir known as Kewawyn and apartment houses in Brooklyn and at Hopedale, Virginia.

WALKER VALLEY.

Walker Valley, May 24.—Mrs. William Hampton, Sr., of Corona, L. I., is spending the week with Mrs. C. C.

Mr. and Mrs. Charles Mack of Wallkill called on the latter's mother, Mrs. E. E. Morrow, Sunday. Mrs. Post, who is teaching at Pleasant Valley, spent Sunday at her home in Port Jervis.

Mr. and Mrs. D. C. Jansen, Mrs. Mattie Morrow and Miss Carrie Whelple motored to Middletown on Monday and spent the day with Benjamin Terwilliger and daughter, Sadie.

On Decoration Day a flag raising will be held in this place. James Kerr and sister of Patchogue, L. I., spent Monday in town.

Mrs. Margaret Barclay spent Wednesday in Brooklyn.

Mrs. Samuel Forbes is entertaining friends from the city. We understand that the new owner of the Dayton farm moved in last week.

Mr. and Mrs. Ellis of Bellville spent Sunday with Mr. and Mrs. J. C. Dewey.

MORAN BUSINESS SCHOOL.

Young Women Already Replacing Men in Office Positions.

The scarcity of young men for clerical positions is becoming more apparent every day. The situation is unprecedented. Young women graduates are accepting positions formerly held by men who have forsaken their chosen professions in order to "do their bit" in the present emergency. The Moran Business School cannot begin to supply the demand for young men stenographers, and it should not be overlooked that the situation will be even more acute when the draft provision takes effect. The sudden exit of boys for service in the militia and on the farms necessitates the employment of girls; the outlook for the latter is, indeed, bright.

Miss Jeanne M. Martine, a graduate of the combined course, has been placed as bookkeeper, stenographer and typist with C. E. Hasbrouck, hardware, this city, through the Moran Free Employment Bureau. Eugene A. Frost, who has been pursuing the combined course at the Moran School, left last week for Fort Slocum, having passed the necessary examinations for clerical service in the quartermaster's department of the army.

Miss Ruth A. Humphrey, a recent graduate, has secured an excellent position as stenographer and office assistant with the Consolidated Rosendale Cement Co., 22 Ferry street, this city.

Miss Margaret Blitschhofer, class of 1915-16, has secured a good position in the office of Schultz & Bogart, Fair street.

The Moran Free Employment Bureau recently placed Miss Catherine McMahon as bookkeeper, stenographer and cashier in the newly opened Women's Bargain Shop, Wall street. The experience of the Moran School during the past month or two indicates conclusively that unless the younger men of the country wake up to their opportunities and learn stenography and bookkeeping, this line of work will be entirely in the hands of women before many months shall have elapsed. It appears that similar conditions prevail throughout the country.

No doubt many firms will follow the example of the Pennsylvania Railroad Company and other large corporations in taking the necessary steps to offset any possibility of a "tieup" by making timely provision to substitute women in place of men wherever feasible.

FARMER BURGER GETS VERY BUSY

The big plot of ground in the rear of the Rose-Gorman-Rose store on North Front street, which it was at one time planned to make into a play ground, will shortly be producing bumper crops to help feed Kingstons. Guernsey Burger, an employee of the firm and a former resident of the town of Wawarsing, has secured the property for the summer and has decided to show the people of Kingston how to grow real crops. Profiting by his experience gained while on the farm he has had the ground broken up and has planted it to potatoes, about four bushels of seed being planted. Not being content with just potatoes, he is planning to follow out scientific methods and produce several crops on the ground. His system of intensive farming will permit potatoes to mature and after the final cultivation of this crop celery will be planted between the rows and finally a crop of turnips will be planted where his early potato vines now are. The members of the firm of Rose-Gorman-Rose and the clerks in the store have already engaged their winter supply of potatoes and Mr. Burger intends to raise enough other vegetables to furnish the entire population of North Front street. Any surplus of vegetables will probably be sold at a special department in the big store.

SAVING AND INVESTING FOR VICTORY AND LIBERTY!

LIBERTY LOAN OF 1917

It is the duty of every individual, both rich and poor, to subscribe to the Liberty Loan. Subscribe for yourself, your wife and your children. If you are an employer advise your employees to subscribe. Lend them the money if necessary, holding their bonds as security to the loan. Your country needs your help. If you cannot go to the firing line, let your dollars fight for you.

SUBSCRIBE TO THE BOND!

Not next month, nor next year. Your country needs the money NOW. Remember! Germany will not wait for your convenience. Also remember, if you do not exercise your privilege of lending your money to the United States as a means to victory, Germany may compel you to subscribe to a greater bond issue for the purpose of paying indemnity, which she will levy on the people of the United States if she ever gets a chance. If the war is not prosecuted vigorously by us, Germany may get that chance.

Germany is three thousand miles away. Our allies are keeping her there.

"WE MUST DO OUR BIT"

Subscribe your share to the Liberty Loan—show the rest of the country that KINGSTON is alive to the gravity of the situation. United States Government Bonds are the safest investment on earth.

By subscribing to the Loan you can help your country and make a splendid investment at the same time.

BUY NOW!

Do not delay your subscription until you have the money. Two per cent only is payable when you subscribe. The balance is payable as follows:

JUNE 28, 18 Per Cent

JULY 30, 20 Per Cent

AUGUST 15, 30 Per Cent

AUGUST 30, 30 Per Cent

For example, one taking a \$100 Bond would pay \$2 down. On June 28th, he must pay \$18 additional; July 30th, \$20 more; on August 15th, \$30; and on August 30th, \$30. This proportion applies to the payment for bonds in any amount.

If the above dates do not fit the convenience of the subscribers, we will loan the money for any payment after the first one, and the subscribers may repay such loans at their convenience.

Liberty Loan Bonds are to be dated June 15, 1917, and will mature on June 15, 1947, but may be paid if the Government so desires, fifteen years after date of issue. They bear interest at the rate of 3½ per cent per annum. Coupon Bonds are issued in denominations of \$50, \$100, \$500 and \$1,000. Bonds registered as to principal and interest will be issued in denominations of \$100, \$500, \$1,000, \$5,000, \$10,000, \$50,000 and \$100,000.

Remember that meat prices are soaring and that you want the best you can get for your money. Elsewhere you will observe lower prices than ours and you will also find a corresponding decrease in quality. We cannot sell you "cheap" meats, but we can serve you with the best roasts, steaks and chops at the lowest prices consistent with prime grades. If you must eat less meat, then let it be good meat. SPARKS FROM THE WAR ANVIL

By Telegram to The Freeman.
Montevideo.—The possibility of Uruguay entering the war on account of the sinking of the Uruguayan steamship Gorizia by a German submarine was lessened today. The government issued a statement that it was doubtful if the Gorizia had a right to fly the Uruguayan flag. The ship was sunk a few weeks ago in European waters.

Ottawa.—Eviction of military service in Canada became more difficult today when an order in council went into effect making it illegal for any male person between the ages of 15 and 45 years, ordinarily a resident of Canada, to leave the dominion without permission. Wonderful Record Made by Maxwell Car

Two Maxwell cars, starting from Stuyvesant Garage covered an area of 30 9-10 and 31 2-10 miles respectively, to one gallon of gasoline attached to the carburetor of the cars by a one gallon tested tank suspended from the side of the car fastened to the windshield. The cars were standard cars, loaned by owners for this event and were not cars prepared for any great mileage. The one carrying three passengers which covered 31 2-10 miles had been in service for nine months and during the winter the car was subject to some very hard service. Although these cars were driven part way through the rain the mileage was considered wonderful and far surpassed our expectations.
